---

Product Designer focused on early-stage startups. Designs products end-to-end — from user flows to clean, usable interfaces. Works across UX and UI, helping turn ideas into clear, structured products.

- Product Thinking
  - UX/UI Design (Web & Mobile)
  - User Flows & Interaction Design
  - Prototyping & Wireframing
  - Usability Testing
  - Design Systems
  - Figma
  - Adobe Creative Suite
- 

## EXPERIENCE

### Product Designer

SET.DO - AI Calendar & Tasks | San Francisco, CA

Oct 2024 – Feb 2026

- Led design for an early-stage AI calendar product, working directly with the founder
- Designed user flows for task creation, scheduling, and daily planning
- Turned early ideas into clear product structure and interaction patterns
- Collaborated with engineers to quickly build and iterate on features
- Simplified key flows to make the product easier to understand and use

### Product Designer

Work Reactor | San Francisco, CA

Feb 2021 – Aug 2024

- Designed core platform flows, including onboarding, profiles, and startup pages
- Worked with founders to define product structure and key features
- Built early versions of the product from scratch
- Improved navigation and overall usability
- Helped turn ideas into clear product decisions

### UI/UX Designer

ArtLife Studio | Kyiv, Ukraine

11/2019 – 02/2021

- Designed web and mobile interfaces focused on usability
  - Worked with product and engineering teams to deliver design solutions
  - Contributed to design systems and maintained consistency
  - Participated in client presentations and feedback sessions
- 

## CERTIFICATES & TRAINING

- Mobile apps design course | Projector Institute | 2023
  - Design Pro | Uprock School | 2021
  - UI/UX Design | DAN.IT education | 2019
  - UI/UX Web, Mobile design | Mobios School | 2019
-
